Type FR Single Toggle Crusher

Characteristics of FR series

Superior crushing performance

Super-hard crusher structure that supports hard natural stone is adopted.

Compact design. ideal for mobile - skid system

Longtime actual performance, polished reliability, and simple maintenance and management

In addition to the actual performance as self-propelled crushing machine to be used for recycle, this series of machine is also equipped with raw stone crushing power to be used for mine and crushed stone.

The hassle-free hydraulic crusher set adjustment mechanism is standard equipped.

Model	Feed opening [mm]	Crushing capacity [t/h]										Cruher Motor [kW]
		Discharge clearance (Closed side setting : CSS) [mm]										
		20	40	60	70	80	100	125	150	175	200
